

# National Fire Plan

## Managing the Impact of Wildfires on the Communities and the Environment

## FY 2002 Programs in Florida

In August 2000, the President directed the Secretaries of Agriculture and the Interior to develop a plan to respond to severe wildland fires, reduce their impacts on rural communities, and assure sufficient firefighting capacity in the future. The National Fire Plan (NFP) was developed and addresses 5 key points:

- Firefighting;
- Rehabilitation and Restoration;
- Hazardous Fuel Reduction;
- Community Assistance; and,
- Accountability.

The USDA Forest Service and Department of the Interior are in the second year of implementing the National Fire Plan, with allocations to Florida estimated at:

### USDA Forest Service Allocations for FY 2002

Firefighting		Rehab and Restoration	Hazard Fuel Treatment	Research R&D JFSP	Forest Health Projects	Community Assistance			Total
Preparedness	Facilities					State Fire Assist	Volunteer Fire Assist	Economic Action Programs	
3,672,542	2,500,000	0	3,298,00	0	0	1,675,532	272,541	22,285	11,440,400

\*Allocations for FY 2001 and 2002 may vary slightly over time due to adjustments in accounting systems.

### Department of the Interior Allocations for FY 2002

Firefighting		Rehab and Restoration	Hazard Fuel Treatment	Research JFSP	Community Assistance Rural Fire Assist	Total
Preparedness	Facilities					
4,114,000	209,520	574,522	2,212,000	0	50,000	7,160,042

### Program Highlights

- Cooperative Fire Protection: Includes Federal Excess Personal Property, State Fire Assistance and Volunteer Fire Assistance. These programs are designed to enhance the State's fire protection and fire prevention capability. During 2001, Florida experienced 4,061 fires, which burned over 384,891 acres.

- **Forest Health Protection:** A fourth consecutive year of severe drought exacerbated the worst southern pine beetle outbreak in state history, devastating commercial forests and suburban landscapes alike. The states largest beetle spot in history covered nearly four square miles in northern Lake County.

## Fire Preparedness and Facilities

*Maintain a cost effective level of preparedness in firefighting and prevention*

- **Preparedness Resources**
  - USDA Forest Service will have a total increase of 3 firefighter personnel, 11 tractor/plows, 10 engines, and 2 helicopters.
  - Department of the Interior will have a total increase of 84 firefighting personnel, 23 engines, 3 helicopters, 4 dozers, and 8 tractors/plows.
- **Facilities**
  - USDA Forest Service will provide funding for the planning and design of the Lake City airtanker.
  - Department of the Interior will provide funding the Gulf Islands fire cache.

## Rehabilitation and Restoration

*Rehabilitate fire damaged wildlands and restore ecosystem*

- Rehabilitation and Restoration program consists of
  1. Immediate actions to reduce threats to public safety, property and natural and cultural resources, and
  2. Long-term actions to help restore healthy ecosystems and replace infrastructure damaged by fire.
- DOI funding will cover ecological stabilization, reforestation (seeding, cultural protection invasive species, contour tree felling, monitoring);
- USDA Forest Service funding will be used to improve overall watershed condition and restoring severely burned forests and rangelands. Projects include reforestation, watershed restoration, road and trail rehabilitation, fish and wildlife habitat restoration, planting and seeding and preventing invasive plants.

## Hazardous Fuel Reduction

*Invest in projects to reduce fire risk with focused effort in wildland urban interface areas.*

- Approximately 285,387 acres are planned for Hazardous Fuels treatment by Federal agencies; an estimated 104,508 acres will be treated in the Wildland Urban Interface.
- An estimated \$5 million will be spent on hazardous fuels treatment work.

## Community Assistance

*Work with communities to reduce the risks of catastrophic fire*

- Rural Fire Assistance (DOI): Estimated funding - \$50,000
  - 16 rural/volunteer fire departments will receive assistance.
- State Fire Assistance (FS): Estimated funding - \$1,675,532.

- Volunteer Fire Assistance Program (FS): Estimated funding - \$272,041.
- Economic Action Program (FS): Estimated funding - \$22,285.

Accountability

*Establish and maintain a high level of accountability including oversight reviews, progress tracking and performance monitoring*

- DOI and Forest Service are developing a uniform set of performance measures necessary to assess program effectiveness these measures will be tracked through a common electronic database by the end of the FY02.
- DOI and Forest Service have developed a uniform process and timeline to identify and complete planning on fuels treatment projects.
- A DOI and Forest Service contracting review has been completed and actions will be initiated to increase the level of contracts for fuels hazard reduction work.
